THE NEW INFORMATIVE CLASSIFIED LIST  
Of The  
**WORLD'S FINEST BLUE RIBBON DAFFODILS**  
And Popular Older Types

Listed herein we offer the most complete catalogue of Daffodils obtainable. For your convenience our 65 new additions are emphasized in capitol letters. On pages 10 and 11 you will find Rock Garden and Dwarf types with approximate height of each. We also take pleasure in presenting our own new and **INFORMATIVE CLASSIFICATIONS**, (explanation of which may be found on next page), which we have compiled by adding numerals to the regular R.H.S. Classifications. We trust that this will be of great assistance to our customers and will take the place of detailed descriptions as well as allay the present confusions as to colorings within the same classes. We appreciate the assistance of such experts as Judge Quinn and welcome any further suggestions. In July we plan, as usual to publish our **DAFFODILS ON PARADE** together with **BUSHEL BARGAINS** and **SPECIAL COLLECTION OFFERS**, this year giving only descriptions and ratings on our **NEW** varieties, as with a little effort we believe you can readily figure the others. If interested in any kinds not found herein, we will gladly quote prices and dig or obtain from a reliable source if order is received before August 31st.

May we please **EMPHASIZE** the necessity of ordering **EARLY**, as, although we raise over 1400 varieties, we do not dig our entire stocks each year and even those lifted and unsold are replanted by November 1st. A special 5% discount (**IN BULBS OF OUR SELECTION**) is given on all orders received before July 31st. We start shipping in **SEPTEMBER**, after the final bulb inspection, and at the proper time for planting to insure good root growth and fine spring blooms—so **PLEASE** do not put off ordering until too late as many do each year—to our mutual distress.

All varieties in this price list and many others may be seen growing in our fields in Gloucester, Va. We have approximately 21 miles of Daffodils as measured by the row. All bulbs undergo a very thorough field inspection each spring and again in the fall while in storage, by the highly efficient State Inspectors and are guaranteed free from disease. George Heath, the grower of these fine Daffodils, has had many years experience including 20 years as farm manager for one of the largest Dutch Growers with plantings of over 200 acres. Full planting instructions included with each order.

**PRICES**

Prices, as listed, are per bulb and are for top sized, double-nose. Do not be led astray by cheap offers which are usually for small inferior bulbs. On quantity purchases allow the following discounts: 12 for the price of 10—50 for the price of 40—and 100 for the price of 70. Write for quotations on larger quantities, also special Garden Club Discounts. To help cover the recent 33 1/3% in Parcel Post rates, we find it necessary to charge \$.50 additional on all orders East of the Mississippi and \$1.00 West of same. Check with order please, or if desired, will send C. O. D.

### FALL BLOOMING BULBS

Shipped by us in June ONLY and should be planted immediately. Usually available in Seed Stores during October. Planted that late their chance of survival, especially in the north, is slim. Large plantings are to be seen at Colonial Williamsburg.

**STERNBERGIA LUTEA** — Large bright yellow crocus like flowers on 6 to 8 inch stems appear in mid September. \$3.00 per dozen.

**LYCORIS RADIATA** (Red Spider Lily) — Large circular clusters of bright red flowers on 2 foot spikes appear almost over night in mid September. A long lasting beautiful cut flower for the house, or a stunning item in the garden. The foliage appears in October and is a welcome spot of deep green in the garden all winter, disappearing in the spring. \$3.50 per dozen.

Both these items resent transplanting, especially if done at the wrong time, but will increase rapidly if left undisturbed. Radiata is especially touchy and care must be taken when digging not to break the thick fleshy roots which are never dormant, and take a year to replace if broken.

### BUSHEL BARGAINS

If not on our mailing list write for DAFFODILS ON PARADE in July, a descriptive list of over 400 varieties, also comments on the 1952 blooming season; we will then have completed digging and know what we can offer in quantity by the bushel, as well as our SPECIAL NAME COLLECTIONS.

**LABELS FOR DAFFODIL PLANTINGS.** We have what we consider the IDEAL label. The 3½ by 1 inch zinc name plate has 4 holes through which the two 12 inch aluminum wire legs are inserted. The name plate can never come loose. If names are written on with weatherproof pencil they remain legible for at least 2 years.
